Subject: Microsoft Settlement

I am writing to strongly oppose the proposed Microsoft settlement. I believe that the entire proposal is a farce as it only covers a few of the laws Microsoft was and still is breaking. There are several unlawful activities specified in the Findings of Fact that are not even mentioned in the settlement. It does not make half an effort to lower the barrier of entry for competitors. There are even exclusions in certain sections that are clear violations of the law. Please inform the court of my disapproval of this settlement and my hope that a real punishment for Microsoft will be realised.

Thank you
Charles Chandler
